Presented by 77we.com

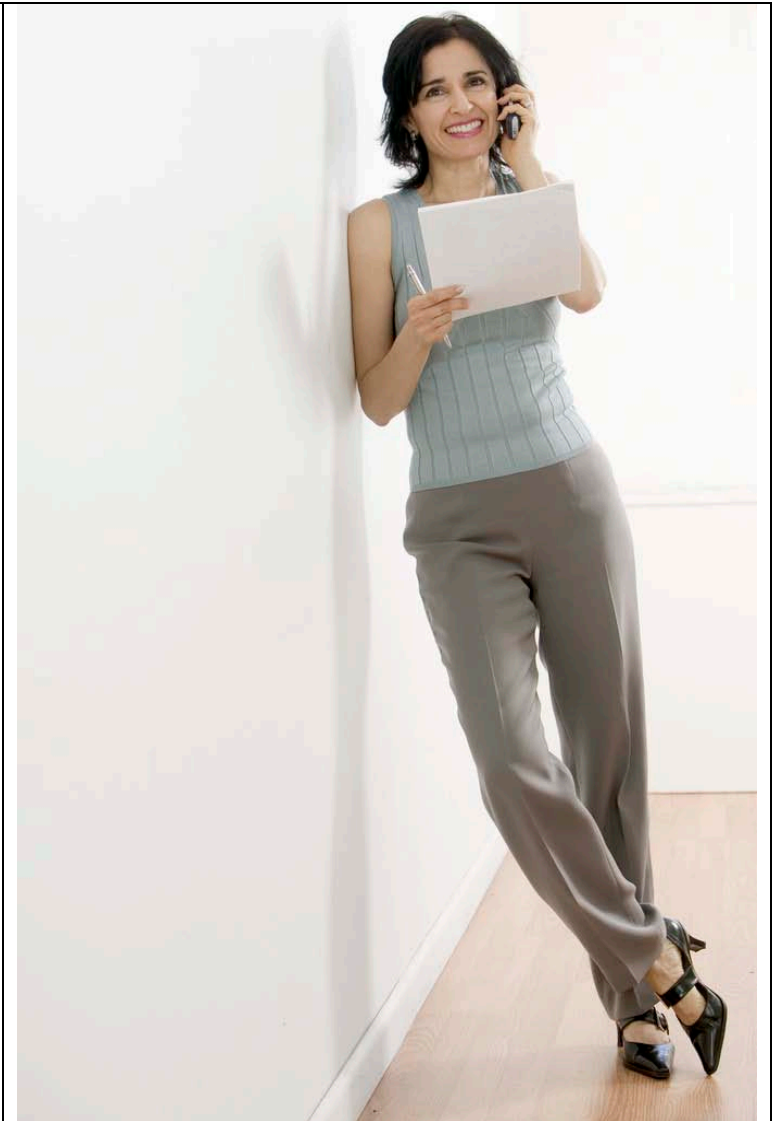

We are pleased to announce that 77we, and its partners, can now offer your car dealership a new seamless way to combine your PRINT, INTERNET and MOBILE advertising for all your advertised new and used automobiles...

In short, we can print an individual salesperson's KEYWORD and SHORT CODE on each of your automobile's printed, or Internet ads...

So, when prospective buyers see your new or used car ads in the newspaper, or on your website, they can now *text* the salesperson's *individual keyword* to the short code listed on the ad directly to the salesperson's cell phone...

This will establish a direct connection between your salesperson and the prospective buyer...

This is an exciting and revolutionary *mobile marketing innovation* for today's new and used car markets...
